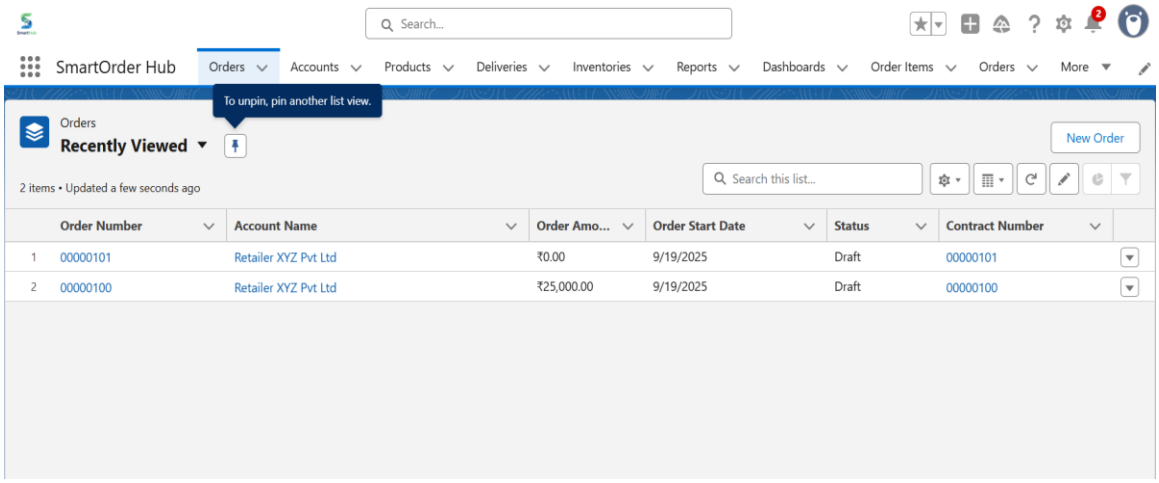
Phase 6: User Interface Development - Completion Report.

Important Phases Completed

1. Custom Lightning App (App Builder Setup)

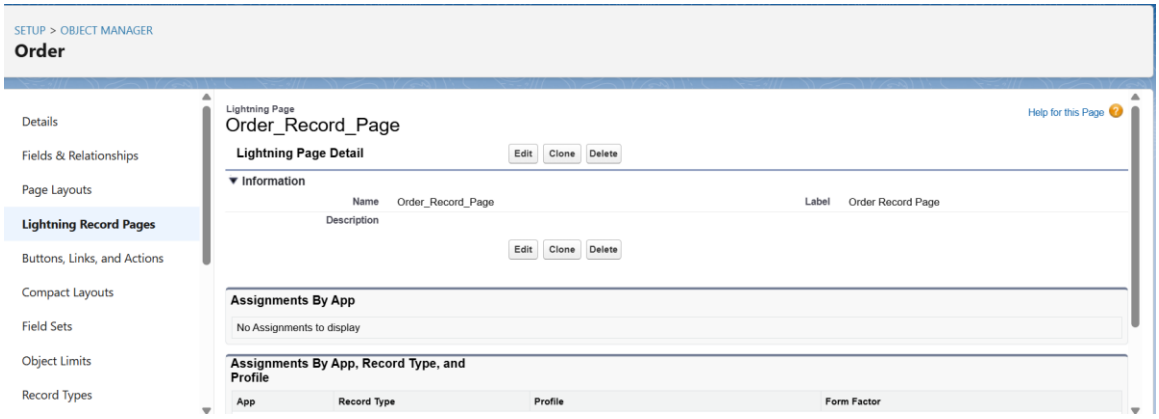
- Created a custom app named 'Wholesaler Order Management'.
- Added navigation tabs: Orders, Products, Inventory, Deliveries, Reports, Dashboards.
- Assigned app visibility to Retailer and Wholesaler profiles.

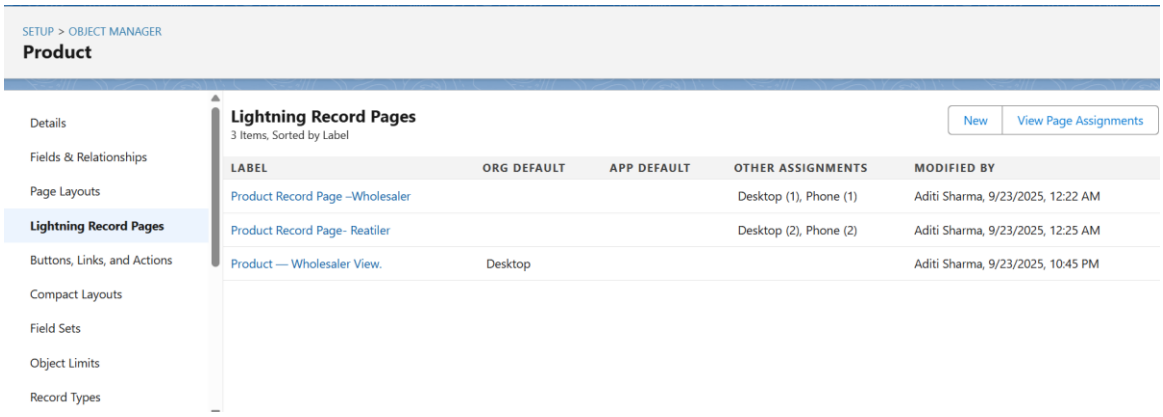


2. Record Pages (Order & Product Pages)

Order Record Page:

- Added Highlights Panel (Order ID, Status, Payment Info).
- Included Related Lists: Order Items, Inventory, Deliveries, Tasks.
- Added tabs for Details, Notes, and Files.





Product Record Page:
- Added Highlights Panel (Product Name, Price, Stock Level, Category).
- Included Related List: Recent Orders.
- Added optional report charts for Sales Trends.
